

## **Cox & Kings Brand Profile**

Cox & Kings, the world's longest established travel company, arranges award-winning small-group tours and private tailor-made travel to the world's most captivating destinations. They also offer expert-led arts and culture tours, group tours specially designed for solo travellers, and create adventurous tailor-made itineraries for families. Cox & Kings' tours strike a balance between visiting iconic landmarks and revealing lesser-known gems; glimpsing layers of history and getting an authentic taste of modern life; and filling days with exceptional experiences combined with enough time to unwind or explore independently.

There is an art to creating and delivering the highest quality tours, which Cox & Kings has been refining for generations. The company's roots stretch all the way back to its establishment by Richard Cox on 21 July 1758. The company evolved from its original purpose providing logistical support for army regiments, through banking and shipping, to its current role making often complex arrangements for discerning travellers.

Cox & Kings are industry leaders in Latin America. Our travel consultants have all travelled extensively throughout the region and will be delighted to help you choose a tour or arrange a tailor-made holiday. From tours to Machu Picchu in Peru to luxury holidays in Brazil, towering glaciers in Chile and wildlife holidays to Ecuador and the Galapagos, Cox & Kings has extensive experience at organising tours throughout the region. Whether you want to cruise down the waters of the Amazon, see how the people on Lake Titicaca live or meet seals in the Galapagos, all is possible to do with our expert South America consultants.
